

PROFESSIONAL SUMMARY

Senior Full Stack Python Developer with 3+ years of experience designing and deploying scalable, production-grade web applications using FastAPI, Django, React, Next.js, and AWS. Proven expertise in backend-heavy systems, REST APIs, role-based access control (RBAC), CI/CD pipelines, Docker, and cloud infrastructure. Experienced in building ERP, EHS, and AI-enabled platforms used by 100+ active users. Strong focus on performance, security, and maintainable system design.

SKILLS

- Programming Languages - Python, JavaScript
- Backend Development - FastAPI, Django, Django REST Framework, REST APIs, Authentication (JWT, OAuth), Microservices
- Frontend Development - React.js, Next.js, HTML, CSS, Tailwind CSS, Material UI
- Databases & Data Stores - MySQL, PostgreSQL, MongoDB, SQLite
- Vector Databases: Weaviate, FAISS
- CI/CD & Automation - GitHub Actions, Jenkins, Docker-based CI/CD pipelines
- DevOps & Cloud - AWS: EC2, ECS, ECR, S3, RDS, Lambda, IAM, CloudWatch, VPC, Route 53, Cognito, Docker, Kubernetes (Basic), Terraform (Infrastructure as Code)
- Deployment Platforms - AWS EC2, AWS Lambda, AWS ECR, ECS, Railway, Render, Vercel, Netlify, Contabo
- Automation & Workflow Tools - LangFlow, n8n
- Version Control & Collaboration - Git, GitHub Agile / Scrum
- Development Tools - VS Code, Postman
- Architecture & Concepts - System Design, API Security, Database Indexing, Caching

WORK EXPERIENCE & PROJECTS DETAILS

Full Stack Engineer | Protegg IT

Team Size: 4–5

Technologies: Python, Django, REST APIs, HTML, CSS, JavaScript, SQLite, Docker, CI/CD, AWS

Key Responsibilities & Contributions:

- Developed **backend-centric ERP systems** using **Python and Django**, implementing complex business logic and relational data models.
- Designed and implemented **role-based access control (RBAC)** across HR, Contractor, Billing, and Project roles.
- Built and maintained **core ERP modules** including HR management, contractor onboarding, billing workflows, and project tracking.
- Developed clean and functional **frontend dashboards and data entry workflows** using HTML, CSS, JavaScript, Bootstrap, and Tailwind CSS.
- Delivered production-ready features using **Docker, AWS and CI/CD pipelines**, ensuring stable and repeatable deployments.

1 . EPC 360 Infra ERP System

Technology Stack: Python, Django, REST APIs, HTML, CSS, JavaScript, SQLite, Docker

August 2025 – Present | Pune, India

Project Contributions:

- Designed a **centralized ERP platform** for EPC companies to manage **HR, Contractor Management, Billing, and Project Operations**.
- Implemented **RBAC-based security model** to protect HR and financial data across multiple user roles.
- Built **HR module** (employees, roles, records) and **Contractor Billing module** (work orders, invoices, payment tracking).
- Designed scalable **Django models and relationships** to support multi-module growth.
- Successfully used in production by **100+ active users across 10+ functional modules**.

2. EHS Management System

Technology Stack: Python, Django, HTML, CSS, JavaScript, SQLite

Project Contributions:

- Developed an **Environment, Health & Safety (EHS) system** to digitize workplace safety and compliance processes.
- Implemented **incident reporting and investigation lifecycle**, from incident logging to corrective actions.
- Designed **hazard identification and tracking modules** with structured and auditable data models.
- Built **data collection workflows** for safety audits, observations, and compliance records.
- Optimized backend workflows to ensure reliable daily data entry and reporting.

Full Stack Developer | The Code Wise

June 2024 – August 2025 | Pune, India

Team Size: 3–4

Technologies: Python, FastAPI, ReactJS, Next.js, MySQL, LangFlow, n8n, Docker, AWS, GitHub Actions

Key Responsibilities & Contributions:

- Worked in **Agile/Scrum teams**, delivering backend-heavy and AI-enabled applications within tight timelines.
- Developed **QueryMate**, a document query platform to search **PDFs and Excel files** using Python, ReactJS, LangFlow, and vector databases.
- Designed and implemented **CI/CD pipelines** using GitHub Actions, Docker, and AWS ECR, reducing deployment time by **~80%**.
- Automated **AWS infrastructure using Terraform**, managing ECS clusters and Dockerized services.
- Built and integrated **WhatsApp Chatbot solutions** for automated report access and customer support.

1. QueryMate – Document Query Platform

Technology Stack: Python, FastAPI, ReactJS, Weaviate, FAISS, LangFlow, AWS Cognito, n8n

Project Contributions:

- Built a **web-based document query system** to extract insights from PDFs and Excel files.
- Integrated **vector search (Weaviate)** for semantic document querying.
- Implemented secure authentication using **AWS Cognito**.
- Deployed and managed the application on **AWS**, ensuring scalable access.

2. WhatsApp Chatbot – Report Automation System

Technology Stack: Python, MySQL, Meta WhatsApp API

Project Contributions:

- Developed a **WhatsApp Chatbot** using Meta's API to provide automated report responses.
- Linked customer mobile numbers with reports stored in the database.
- Integrated chatbot with **QueryMate** to handle document-related queries via WhatsApp.

3. OCR Document Processing System

Technology Stack: Python, LLAMA, Next.js, MySQL, AWS, AWS Cognito

Project Contributions:

- Automated **data extraction from PDFs, images, ZIP files, Excel files, and FTP sources**.
- Implemented OCR and LLM-based processing pipelines using **Python and LLaMA**.
- Deployed the system on **AWS**, enabling scalable document processing workflows.

Full Stack Developer | Freelancer 

February 2023 – June 2024 | Pune, India

Technologies: Python, Java, Django, FastAPI, Next.js, ReactJS, MySQL, PostgreSQL, AWS, Weaviate, LangFlow

Key Responsibilities & Contributions:

- Delivered **3+ full-stack freelance projects**, owning backend, frontend, and deployment end-to-end.

- Developed scalable web applications using **Python, Django, FastAPI, Next.js, and ReactJS**.
- Designed relational databases using **MySQL and PostgreSQL**, ensuring data consistency and performance.
- Deployed applications on **AWS**, integrating **LangFlow and vector databases** where required.

1. AssetPro – Intelligent Asset Tracking System

Technology Stack: Django, Django REST, Next.js, Tailwind CSS, SQLite, Jenkins, AWS

Project Contributions:

- Built an **end-to-end asset tracking system** with **QR code scanning** and complete asset lifecycle management.
- Designed backend APIs using **Django REST Framework** and interactive frontend dashboards with **Next.js and Tailwind CSS**.
- Implemented **real-time asset monitoring**, alerts, and status dashboards.
- Automated build and deployment using **Jenkins**, deploying the system on **AWS**.
- Successfully tracked **5,000+ assets** with reliable data visibility.

2. SwarajCab Service Website

Technology Stack: Next.js, Tailwind CSS, Python FastAPI, PostgreSQL, AWS EC2

Project Contributions:

- Developed a **cab booking and service website** with modern UI using **Next.js and Tailwind CSS**.
- Built backend services using **FastAPI**, handling booking requests and data management.
- Designed and optimized **PostgreSQL** database schemas.
- Deployed the application on **AWS EC2**, ensuring stable production access.

Full Stack Developer Intern | Source Code Technologies

October 2023 – July 2024 | Pune, India

• **Technologies:** Python, FastAPI, Authentication, ReactJS, MySQL, AWS

Key Responsibilities & Contributions:

- Gained hands-on experience with **Python OOP concepts** and **authentication workflows** in real-world applications.
- Contributed to **full-stack development tasks**, supporting backend logic and frontend integration.
- Assisted in developing and testing application features, following clean coding and version control practices.

1. Elixir – Drug Template Generation Web App

Technology Stack: Python, FastAPI, ReactJS, MySQL, AWS, AWS Cognito

Project Contributions:

- Built a **drug template generation system** to manage and generate structured pharmaceutical documents.
- Developed backend logic using **Python** and frontend interfaces using **ReactJS**.
- Designed and managed **MySQL database schemas** for template storage and retrieval.
- Implemented **secure authentication using AWS Cognito** for controlled customer access and downloads.
- Deployed the application on **AWS**, ensuring scalable and reliable performance.

Web Developer Intern | Elite Software

January 2023 – March 2023

Pune, India

Technologies: HTML, CSS, JavaScript, Bootstrap, Next.js, Tailwind CSS, Python, MySQL, Terraform, GitHub Actions, Netlify, Contabo, Railway

Key Responsibilities & Contributions:

- Developed **responsive business websites** with HTML, CSS, JavaScript, and Bootstrap, ensuring user-friendly UI/UX.
- Contributed to backend services using **Python** for dynamic content and data management.
- Followed version control and agile workflows, delivering features on time.

1. PuneMumbaiTravels – Travels Website

Technology Stack: Next.js, Tailwind CSS, Python, PostgreSQL, Terraform, GitHub Actions, Netlify, Contabo, Railway

Project Contributions:

- Built and maintained the **official company website** showcasing services, blogs, and booking info.
- Developed **responsive frontend** using Next.js + Tailwind CSS; backend APIs in Python with PostgreSQL.
- Achieved **99.9% uptime**, improved SEO and user engagement metrics.

- Automated infrastructure provisioning with **Terraform** and CI/CD pipelines via GitHub Actions.

 ACHIEVEMENTS

- Completed 6 Months streak on GitHub!** 
- Present
- 39+ Repositories on GitHub
- 5 stars on the HackerRank platform** 
- August 2024
- 50+ Assignments solved on Hackerrank

 COURSES

- Python - Basic & Advanced (2 months)** 
- May 2022 – July 2022 | offline (Pune)
- GAMAKA
- DevOps on AWS** 
- August 2025 | online
- AWS Training & Certification
- Diploma in DevOps Engineering** 
- January 2021 – May 2021 | online
- Alison
- 39+ other courses with certificates** 
- January 2020 – Present | online, offline
- Link To All Kinds Of Certifications At One Place

 EDUCATION

- B.E - Computer Engineering | Dr. D. Y. Patil College Of Engineering & Innovation, Pune**
- July 2020 – June 2024 | CGPA : 7.83
- Higher Secondary (HSC) | Bapuji Sahadu Kadu Patil Junior College Of Science & Arts, Satral**
- April 2019 – May 2020
- Percentage : 62.31
- Secondary School (SSC) | Nanasaheb Sahadu Kadu Patil Vidyalaya, Satral**
- April 2017 – May 2018
- Percentage : 85.20

 PERSONAL DETAILS

- Nationality** : Indian
- Marital Status** : Single
- Languages Known** : English (Not So Fluent), Hindi (Fluent), Marathi (Native)
- Gender** : Male
- Permanent Address** : A/p- Songaon, Rahuri, Ahilyanagar, Maharashtra Pin-413711
- Hobbies** : Programming, Travelling, Continuous Learning
- Strength** : Self-Motivated, Quick Learner, Strong Leadership, Smart Decision-Making
